STORAGE PRODUCTS DIVISION

We offer storage products services with an insurance coverage in logistically structured warehouses and boxes suitable for guarding furniture and furnishings, waiting for a

destination. The storage service includes the possibility to take out custom-fitted insurance policies at convenient conditions and competitive prices.

VEHICLES FLEET AND SPECIAL EQUIPMENT

Our vehicles fleet, composed of more than 40 elements, allows us to access easily old town centres and, at the same time, to move big volumes.

Moreover, our company has some special equipment, such as: telescopic ladders, automotive jib, stair-robot. They allow us to meet the needs to move adequately.

These instruments are mainly used in the movement of

objects which are particularly heavy and voluminous (strongboxes, armoured closet, computers, pianos) and in the movement involving offices, public authorities and banks). A preventative and periodic maintenance is carried out on the equipment, assuring the best efficiency. For these special services, we offer an organisational professional advice, from the inspection to the work execution.

RENTAL DIVISION

We can make different vehicles available to our customers, complete with kits for transport, for do-it-yourself move and, if necessary, our qualified employees are available for the implementation of loading and unloading phases. We give the chance to rent vehicles of different categories,

such as vans for the transportation of goods and passengers until 9 seats. All the vehicles are kept in good conditions, and at a very competitive price, they are available for any kind of needs: travel, holidays, and work.

ENVIRONMENTAL DIVISION

The company manages all the problems concerning the environment, using the most advanced techniques.

Waste Management: we carry out activities of collection, transportation, treatment, storage and disposal of dangerous waste and not (paper, iron, ink-cartridge and toner for printers and plastic) according to the current legislation, releasing the related law documentation.

Disinfestations: we remove infesting animals, such as arachnids and insects through different practical techniques (mechanical, chemical and biological means) according to the specific problem, but always aimed at the achievement of the maximum outcome in respect of the environment.

Disinfections: this service is oriented to the distribution of pathogenic microorganisms, such as viruses, moulds,

fungus within houses, hotels and means of transport.

Cleanliness: we accomplish clean-up services in any kind of location: offices, business sites and houses. The service is extended to parks and gardens, too.

Pest control: this service fulfills a fundamental role in the field of environmental hygiene and healthy environment. We own all the products and tools to provide a prompt, efficient and enduring extermination of rats and mice.

Food safety: we develop management systems for all the public and private enterprises, operating in the food field, that mean to adopt and verify the hygiene procedures in order to guarantee the safety and the healthiness of food as by law enacted.

Our environmental services are operative round the clock all year.

HARDCOPY ARCHIVES DIVISION

The company acquired a specific "Know How" in the cataloguing and management of hardcopy and electronic archives in order to satisfy the requirements of customers, varying in type and size. We organised our places for the

storing of hardcopy and electronic archives, making these places safe and suitable to the long-life. The archive can be consulted online and the required material is available to our customers within 12 hours.

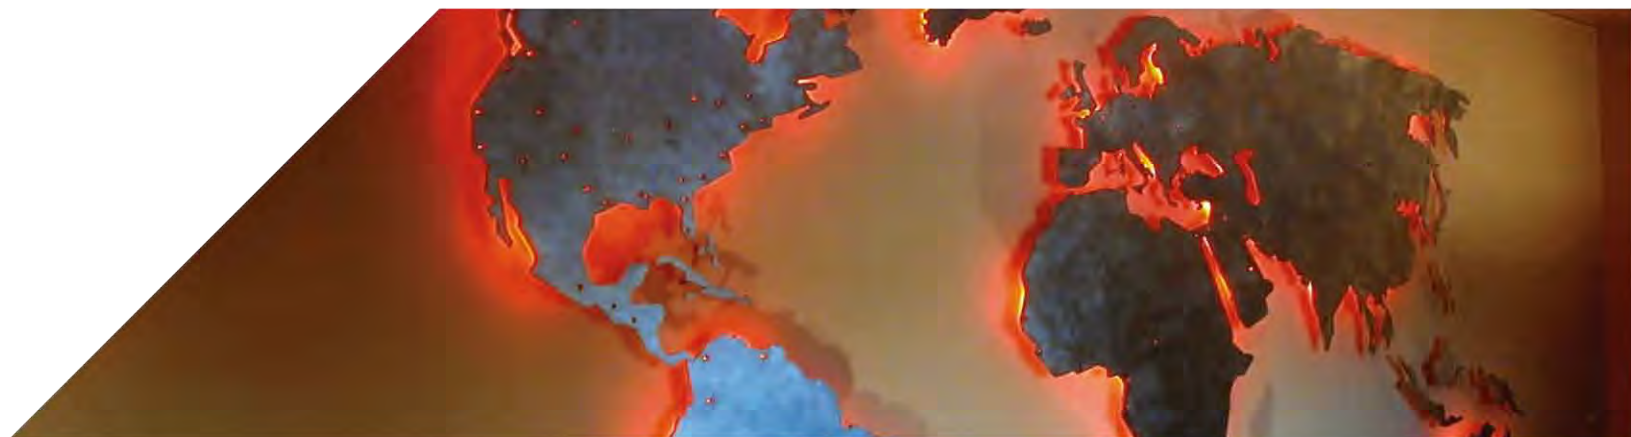

MOVING DIVISION

Thanks to the fully grown experience and the technologically advanced equipment, we can provide an highly qualified service, respecting and planning the timing and the ways of execution. We take care of all the operative phases: from the packing, in which high quality raw material is used (paper of pure cellulose, card board corners, wooden crates for fragile objects), to the disas-

sembly of furniture, until the complete unpacking and reassembly. Our professional employees, with important experience, are specialised in every task, above all in the movement of objects, fragile and priceless pieces of furniture. Each moving is preceded by an inspection, by a free estimate, and it is guaranteed by insurance policies subscribed with leading companies.

TRANSPORT DIVISION

Our company accomplishes transportations over the national and international territory standing out for its absolute professionalism. We use large size vehicles and

highly qualified staff in the moving of goods. The respect of deliveries which are carried out within the deadline is our qualifying value.
