- Sanitization for companies, institutions and privates
- Vehicle rental and kits for transporting and moving "do it yourself"

HOW WE WORK

The emotional significance of items customers place in our care is important to us, his need to feel safe and therefore any transport or move for us becomes first of all a matter of trust. We guarantee reliability, competence, planning in details and flexibility. Nothing is left to chance. On our side, there is a long history of experience, an established business.

In addition, we strictly select and train all our employees according to De Vellis quality standards, to ensure that every service provided is defined by efficiency, speed, care, kindness, and maximum discretion. The crew leader is the main clients' point of contact, he welcomes all their needs, plans every details, and coordinates the necessary operations within the established deadline. The same level of care is taken in other fields, including storing documents, cleaning, and vehicle rental.

DOMESTIC AND INTERNATIONAL MOVES

Enjoy the journey, we take care of everything else

- Survey
- Free estimate
- Planning moves within the established deadline
- Household goods pack-out
- Protection of fragile items and household goods
- Constant assistance, furniture disassembling and reassembling
- Insurance for every need

PRIVATE MOVE

Your home wherever you are

From the initial survey to the final cleaning, we carefully follow every step of your move: packing, assembling/disassembling, unpacking and placement into residence. We plan every step with you, based on your needs. We know how important it is to feel at home since the first day. For this reason, upon request, we partner with architects, interior designers and craftsmen to recreate the previous environment in the new home.

OFFICE MOVE

Keeping your equipment safe

Furniture, equipment, technology, archives: we take care of everything that is valuable for a company and we plan the move so as not to interrupt work activities, minimize inconvenience for employees and keep documents safe. Our special equipment, qualified technicians, high-quality packaging materials and efficient cataloguing systems allow us to act quickly in case of a location change or redesign of the spaces.

PUBLIC ADMINISTRATION MOVE

Archives and equipment: everything in its place

We have a long experience and a large list of reference in transport and moving for public administration. Paper and digital archives, special and heavy equipment, furniture of any kind: we have the most suitable and safe solution for packing and storing also high value items. We supply all the consulting services to replan spaces and furnishing, along with cleaning, sanitization, clearing, and disposal services. On time and on budget.

ART WORKS MOVE

Care and equipment to protect high value items

Handling of fragile and high value art works enhances our professionalism. Thanks to the cutting-edge of our equipment and to our specialists know-how in handling high value items, we guarantee the absolute safety of the transfer of any goods, even the bulky ones. From ancient books to paintings, from archaeological finds to high value items. Reefer container, special packaging, satellite anti-theft device: we have everything you need.

FAST. SAFE. EFFICIENT.

LONG DISTANCES, LARGE QUANTITIES

devellis.it

INTERNATIONAL TRANSPORT AND MOVES

We are specialized in safe transport by surface and intermodal transport. We are able to satisfy any need related to full or partial removals of furniture or high value items to foreign locations. Our trusted logistic network, worldwide certified partners and "all risk" insurance are a quality guarantee and ensure that timeline is met.

SPECIAL EQUIPMENT

We have a cutting-edge equipment that allows us to operate both for small or large volume, in any context, from old town narrow access to the canals of the Venetian lagoon (link video/qr). Telescopic ladders, crane boom self-propelled and stair-robot are just some of the equipment at your disposal for handling even bulky items, such as pianos, armoured cabinets and safes.

RENT FOR MOVING AND TRANSPORT "DO IT YOURSELF"

To facilitate the move on your own, you can choose the solution that best suits your needs from our rental fleet. There are vehicles available for the transport of goods (vans and trucks with and without trailer) and people (cars and minibuses up to 9 seats). We provide packing kits for DIV moving, aerial platforms, and our staff can help you with loading and unloading upon request.

GREEN COMMITMENT

We strive every day to reduce the environmental impact of our transport and moving services: we optimize the resources used and cargo space, we recycle packaging materials at the end of the service, we dispose of waste according to the current regulations.

WAREHOUSE

Our headquarters in Central Italy has over 20 thousand square meters of covered spaces and 60 thousand uncovered spaces for storing furniture and goods. With video surveillance and insurance for every need.

ARCHIVES

We specialize in cataloguing, management and storage of paper and electronic archives. Reliability and safety are guaranteed by our internal procedures. Upon request, we scan documents, carry-out on line search and consultation. Our proposal involves the acquisition of software that can automate registration, management, and archiving activities according to the current AIPA computer protocol regulations. The system allows remote access and use of documents held in our archives.

ENVIROMENT

Sanification

Accurate sanitization services by nebulization of disinfectants and ozone products. We use ECOPRO 28 iWell generators for civil and/or industrial use for a safe, effective, homogeneous and fast sanitation even in critical areas otherwise unreachable.

Waste disposal

Collection, transport, storage and disposal of hazardous and non-hazardous waste, according to current legislation, with the release of legal documentation. We have a fleet of removable bins for the separate collection of waste. The company is registered in categories no. 4, 5, 8, 9 and 10.

Pest control and deratization

Removal of insects and pests by mechanical, chemical, biological means and environmentally friendly.

Dinsinfection

Destruction of pathogenic microorganisms such as viruses, molds and mildew in housing, public buildings and means of transport.

Cleaning

Cleaning services in offices, commercial premises and private homes, as well as parks and gardens and green maintenance.

Food safety

Management system to ensure food safety compliance in accordance with law.
